This is the first in a set of direct-to-video (OVA) releases made shortly after the “Irresponsible Captain Tylor” TV series concluded production, and is sometimes known by fans as “Tylor’s War.” They deal with events that occur about six months after the conclusion of the Raalgon war.

The shooting war is over. The undefeated Soyokaze has returned home and all should be right in the universe. It's not ... the Raalgon Empire has created an incredibly powerful and destabilizing new weapon system. With the urging of the Prime Minister, they're about to deploy it and when the UPSF forces realize this the choice is clear. These are desperate times ...

The shape of the future will be determined by the actions of very unlikely allies. Their choices will be difficult and their situation may well be hopeless. Any hope for galactic peace rests on the most irresponsible man in history. Perhaps Tylor will stay awake for this.

Also includes several music video segments featuring the cast!

The original TV series DVD release of Tylor has been a best seller - capture more sales with repeat customers with the OVA releases!
